An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 12 and 13 have been cancelled because claim 1 is no longer considered a generic claim.

In the Abstract, line 10, "elastomeric" has been deleted.

In the Abstract, the text beginning with "In" in line 10 through the end of the abstract has been deleted.

The changes to the Abstract have been made to keep the length of the Abstract at 150 words or less as required.

The following is an examiner's statement of reasons for allowance: The prior art Tribble reference is considered the closest prior art of record. While Tribble does not disclose a hollow barrel it would have been obvious to provide it with such as taught by Lincoln. However, such a combination would not have taught the ordinarily skilled artisan to also provide the elastomeric material such that it provided the bat with the particularly claimed characteristics of the final subparagraph of claim 1. Nor would such a combination have inherently produced such characteristics with a hollow wooden barrel portion as suggested by the prior art.

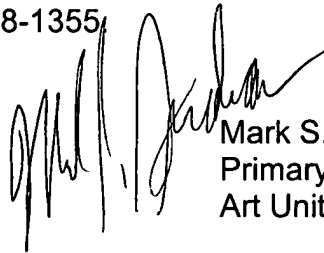

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark S.

Graham at telephone number 703-308-1355.

A handwritten signature in black ink, appearing to read "Mark S. Graham", is positioned above the printed name and title.
